

# GÖRKEM MADRAN

FRONT END - REACT DEVELOPER

0507 938 98 00

gorkemmadran@hotmail.com

Hello! I'm Görkem, a front-end developer based in Izmir, Turkey, and I'm 26 years old. Despite having nearly 2 years of experience, I have dedicated myself to improving my skills in HTML, CSS, and JavaScript. Currently, I am in the process of mastering React to enhance my development skills. In addition to my expertise in fundamental web technologies, I am also experienced in using frameworks like Tailwind CSS, Bootstrap, and Sass. I strive to speed up the development process and create visually appealing user interfaces. I am particularly passionate about creating dynamic and responsive web experiences that attract users. My work ethic is based on collaboration, and I excel in team environments where creativity and innovation thrive. My familiarity with version control systems like Git and platforms like GitHub allows me to effectively manage projects and contribute to collaborative efforts. I am committed to continuous learning and growth, and I am excited about the opportunity to contribute to impactful projects in the ever-evolving field of front-end development and further expand my skills.

If anyone would like to review my code, you can find me on:
